Step 1: Select a base for your layout as well as a couple of other sheets for your circle and photo matting.

Step 2: Cut a ring at the width of your choice, using either the Circle Cutter or the Custom Cutting System and Jumbo Circle Pattern. See my blog post and video for more on how to do that if you don't know how. Adhere it to your base.

Step 3: Trim your photos to your preferred size. Mat them on a coordinating paper or cardstock. Adhere them to your page.

Step 4: Embellish using coordinating products, and/or by punching out shapes to match your theme. Journal.
