- Step 1:** Select a paper for your base, and 2-3 others for your mat boxes.
- Step 2:** Depending on the size photos you use, cut 2 mats at $3\text{-}3/4'' \times 4\text{-}1/2''$, another at $4\text{-}1/2'' \times 4\text{-}1/2''$, and another at $4\text{-}1/2'' \times 6\text{-}1/2''$.
- Step 3:** Trim your photos. In my example, I used a larger photo for the top part, and trimmed 3 others to fit the sizes of the $4\text{-}1/2''$ mats, so they made a nice row of photos along the bottom of the page. Adhere to each of their mats and stick onto your page.
- Step 4:** Use either a $4'' \times 6''$ photo for your top box, or a mat to journal in, and adhere that to it's mat and layer slightly under your bottom strip of photos.
- Step 5:** Add embellishments and journal to complete your page.
