

June 21, 2024

- Step 1:** Select a 12" x 12" base, along with 3-4 other papers/cardstocks. Punch out 2-3 borders with a border punch/border maker cartridge of your choice from one of your papers. Set aside for now.
- Step 2:** Use another piece of paper to create the bottom strip of your side border. Cut it to a 3-1/2" x 12" strip. Cut another piece from another paper to 2" x 12". Use your Decorative Trimmer to create 2 more pieces from the same paper at 1" x 12".
- Step 3:** Adhere your 1" wave pieces to the back of your 2" strip so that the edges show from behind. Adhere your 2" strip with waves to the 3-1/2" strip. Adhere the entire border to the right side of your base. Use Repositional Tape Runner to stick one of your punched borders down the middle of your border strips.
- Step 4:** Cut up your other borders into pieces, so you can use them to create a half circle shape around your base, as shown. Trim and adhere your photos down.
- Step 5:** Embellish and journal.
