Step 1: Use the Chevron Arrows Border Maker Cartridge to punch both sides and top of the airplanes tonal paper. The corners will be messy. That's ok! We'll be covering those anyway.

Step 2: Put your punched piece on top of a piece of the dark brown leather tonal paper. Fold the top two corners as shown, covering your messy, punched corners. Cut a piece of the stripes designer paper to measure 1" x 12" and add it to the top of the page from the back side to complete the corners.

Step 3: Cut a piece of light leather designer paper to measure 10" x 8-1/2". Use the 2-Way Corner Rounder to round all four corners. Add to the page.

Step 4: For that design above the leather paper, you can cut the laser-cut mat as shown to use as a luggage handle. Add to the page.

Step 5: Adhere mats, stickers and embellishments using Foam Squares on some for added dimension.
