

## 2026 Summer Scrappy Camp - Adventure Awaits! Challenge 24 - #scrappyhike24 (July 25, 2026)

For this challenge, all you need to do is ink the edge of a photo mat by either running the ink pad along the edge of the paper, or by using your brush to apply it before putting your photo on its mat.

I used both instances in my example here. In the center, tomato photo mat, I brushed the ink on to create the enhancement. In the other two photos, I simply ran the ink pad along the edges of the mat to give it a little lift off the page.

To complete this challenge, I encourage you to try both of these techniques in one layout. Your layout look any way you

want it to, but it just have to have those 2 elements.

**The way I did this one:** If you do want to copy this layout, all I did was take my jumbo Custom Cutting Circle and cut a half circle from a paper I liked both sides of. I used the Red Blade in the center of the pattern. Then I cut the half circle into 6 segments. I flipped every other segment and adhered it to my page.

Then I just inked my photo mats with the different techniques, adhered everything down, and titled.
